

Melissa & Victoria

Dear Birth Parent,

Hello! Thank you for taking time to consider us as adoptive parents for your child. We understand this is an overwhelming process. We can assure you that if we are chosen, your child will be loved unconditionally. Also know that you will never be a mystery in their life—we welcome and want you to be a part of his or her life as well as ours. We appreciate the opportunity to share a bit of ourselves with you.

sincerely
Melissa & Victoria

Our Story

We met one early morning in 2016 at a local CrossFit gym and been by each other's side ever since. We are the perfect complement to each other! Melissa is always dreaming big for our next life adventure and Victoria puts together the plan to make it happen. When we're not at the gym or exploring new places or foods, you'll likely find us having a movie night on the couch with our dog Carter.

About Melissa

Melissa grew up in the same area she and Victoria currently live in. Melissa attended a nearby university where she obtained a bachelor's degree in Education and a master's degree in Teaching for Autism Spectrum Disorder. Melissa currently works in education as a county consultant for students with autism.

Melissa learned how to play the violin as a child and played in the orchestra for her school orchestra and the city youth orchestra. Melissa also enjoys quilting, which she learned from her grandmother and is a skill she hopes to be able to pass down to her child. In her spare time, you will find Melissa at the gym, as her she pursues her passion for Olympic Weightlifting.

***“Your child will be loved unconditionally,
and you will never be a mystery to him
or her.”***

About Victoria

Victoria grew up in a town near the city she and Melissa currently live and attended a local state university, where she studied business. After spending nearly 10 years in the business world, Victoria decided to pursue her passion of helping people and began a career in public safety.

Victoria is often referred to as the calmest person in the room and is always ready to lend a helping hand at a moment's notice. She spent much of her childhood traveling with her family and learning about new places and cultures. Victoria loves spending time watching documentaries, reading, and solving puzzles.

About our Family

Melissa's parents live within a short driving distance from us, and we see them on a regular basis. Melissa's sister and brother-in-law live about an hour away with their two young children and we see them almost every holiday!

Carter is our 7-year-old mini-golden doodle. Carter is the life of the party and has never met a person he hasn't loved instantaneously. He enjoys going for walks, belly rubs, and lots of treats. When he's not busy chasing the squirrels in the backyard, you can find him lounging on the couch waiting for someone to cuddle up with.

About our Community

We live in a medium size city that is family friendly and has exceptional schools. The city has many parks to explore and puts on events throughout the year. We are also a short drive from several historical museums and parks that offer year-round family friendly events and entertainment.
