

HANDS ACROSS THE WATER WAITING FAMILY

Kristy and Kyle

Thank you for your time and consideration. We cannot begin to imagine everything you are going through. Our journey to parenthood hasn't been easy; however, through it all we have come out stronger and more assured than ever that adoption is our destined path. We have nothing but love to give and cannot wait to share it with someone. We both work at a nearby hospital that is part of a large healthcare system. Kyle works in finance and Kristy is the manager of the Pathology Department. We both love our jobs and enjoy what we do every day. We even have the luxury of driving together most days!

We have been married for three years and have been together for five. We love geocaching (basically a world-wide scavenger hunt), escape rooms, and traveling. Some of our favorite destinations have been a Caribbean Cruise where we got married, a trip to New Orleans during Mardi Gras, Universal Studios/Disney World and Arizona. When we travel, we usually like to do a little bit of everything, whether that be a zoo, aquarium, touring museums or trying local cuisine. We always try to find a geocache and do a room escape in every city we visit.

When we are not traveling, we also love to spend time with our family and friends, whether it is for the holiday or just a spontaneous get together. Also, our family would not be complete without our pets. We have a golden retriever named Sampson, and two amazing cats named Paka and The Littlest Kitten (she isn't so little anymore). We hope to share all of these fun activities with a future child, and we look forward to finding new activities to enjoy as a family as well.

Thank you for taking the time to read about us and we look forward to possibly meeting you!

About Kristy

- **Age:** 30
